Insolvency & Bankruptcy Code : A journey towards economic growth

About Golden Antlers : Golden Antlers is founded by a young energetic team of legal professionals, who aspires to meet the challenges faced by the legal fraternity, and play a significant role in knowledge dissemination through interactive sessions, such as seminars, trainings and workshops. It is our endeavour to bring in the legal luminaries, who are experts in their respective fields of practice, to share their expertise and in-depth knowledge on the subject through a common platform organized by Golden Antlers. We therefore strive to achieve in setting up the ideal platforms where knowledge meets wisdom !

Our Mission is to contribute to the society in a small way by bringing an awareness in the legal fraternity on the various evolving contemporary legislations and to groom the budding lawyers in a cost-cum-time efficient manner.

In July 2018 Golden Antlers in collaboration with ACoS had successfully held a seminar on Insolvency & Bankruptcy Code. Inspired by the good wishes of Justice Jinan, Judicial Member, Calcutta Bench of NCLT, and encouraged by the kind words of the attendees and the speakers, Golden Antlers decided to hold a similar seminar at Kolkata in the presence of legal luminaries like, Mr. Jayanta Mitra, former Advocate General of Bengal.

About the Seminar : With the introduction of Insolvency & Bankruptcy Code, 2016, the Indian legislation paves the way for much needed reforms while focussing on creditor driven insolvency resolution. It aims at early identification of financial failure and maximising the asset value of insolvent firms. The Code also has provisions to address cross border insolvency through bilateral agreements and reciprocal arrangements with other countries. However, amidst all the positive changes, industry feels that the code reduces the scope of industrialist's appetite of taking risks. Experts have their own views, and most agrees that these changes and challenges are inevitable for a wholesome economic growth. This seminar therefore is an attempt to find solutions for the industry to make the best of it.

Insolvency & Bankruptcy Code : A journey towards economic growth
